

Celebration of world soil day

On 5th December 2019, ICAR-NRC for Orchids has celebrated world soil day and the program was attended by all the staffs of ICAR-NRC for Orchids. A presentation was presented on the importance of soil in agriculture and strategy for augmenting soil for future use in front of the gathering. Also there was discussion about different policies related to soil. Finally the program was ended by thanks giving to the gathering.

Picture of the program are given below:
